Foreword

This publication is one of a monthly series containing data on medical assistance payments made under Title XIX of the Social Security Act (Medicaid). Information is compiled and reported by each State and/or jurisdictional agency administering an approved Title XIX program on Federal Report Form SRS-NCSS-120: Monthly Statistical Report on Medical Care. Currently there are 54 such programs; 49 States, the District of Columbia, Guam, Puerto Rico and the Virgin Islands. Arizona has not initiated a Title XIX program and Massachusetts has a separate State agency for blind recipients.

Prior to January 1974, similar data were collected for the midmonth of each quarter and midmonth quarterly reports have been published in this series since May 1967.

Reports for the months of March, June and September will include quarterly summary data and in addition, reports for December will include annual summary data.

Information presented include medical payments by form of payment, payments to medical vendors by type of services, number of recipients in whose behalf medical vendor payments were made and data related to screening services under the Early and Periodic Screening, Diagnosis and Treatment Program.

This report was prepared by Henrietta Duvall and Annie J. Mayfield of the Medical and Rehabilitation Statistics Staff of the National Center for Social Statistics.

Introduction

Medicaid (Title XIX of the Social Security Act) is an assistance program designed to provide medical assistance to specified groups of needy individuals. Such persons are classified into two main groups according to their maintenance assistance status, (1) those who are authorized to receive money payments for their basic necessities under public assistance programs such as Supplemental Security Income and Aid to Families With Dependent Children, and (2) those who are not receiving maintenance assistance payments even though they may, in fact, be eligible. There are extensions of the maintenance assistance status categories but uniform procedures do not exist for reporting such data. There are four basic eligibility requirements for medical assistance: (1) age 65 and over; (2) blindness; (3) permanent and total disability; and (4) membership in families with dependent children. In addition, some States have exercised the option of including other needy persons who do not fall into any of the above categories. Such recipients are classified as 'Other title XIX' recipients in the accompanying tables. Also, 'essential persons' (usually spouses) may also be eligible for medical care. For money payment recipients, these persons are usually classified according to the same eligibility factors as the recipient spouse.

Generally, payments are made out of Medicaid funds to vendors (providers) of medical services, directly or through a fiscal agent as the direct result of claims filed by the provider after services are rendered. Data presented in this publication are generated as an adjunct to the Medicaid claims processing and payment operation. Thus, information is based on bills paid and not services rendered during the month. Consequently, the data provided through this process are not professed to represent a true picture of the incidence of illness among Medicaid eligibles and are subject to fluctuations unrelated to the provision of medical care. Monthly data are collected and presented to meet pressing current demands for minimum information on medical care financed under title XIX. However, states are required to provide more significant and detailed annual data on the numbers of persons receiving medical services, the number of units of such services and the corresponding amounts of payments.

Except for payments, data related to screening services are not necessarily generated through the claims payment process. Numbers of individuals screened are usually based on services actually rendered during the report month. As a result, payments reported for screening services may be unrelated to persons receiving such services.

Medical Assistance (Medicaid) Financed Under Title XIX of the Social Security Act - February 1974

A total of 848.5 1/ million dollars were paid out of Title XIX funds in February 1974. An estimated 7.9 2/ million persons had medical vendor payments totalling 834 1/ million dollars made in their behalf. An additional $0.8 million in vendor payments were made for screening services under the Early and Periodic Screening, Diagnosis and Treatment Program (EPSDT). There were concurrently 252,004 persons enrolled in Health Maintenance Organizations whose premiums were paid out of Title XIX funds.

Persons Served

More than half (53 percent) of the recipients for whom vendor payments were made were members of families with dependent children. AFDC children under 21 and other Title XIX recipients under 21 represented about 37 percent of recipients. Twenty-four percent of the recipients were eligible on the basis of age 65 and over. Seventy-two percent of the medicaid recipients were also recipients of maintenance assistance in the form of money payments. Among members of AFDC families, eighty-nine percent of the recipients were also receiving money payments.

Amounts of Payments by Groups of Persons Served

Thirty-eight percent of payments to medical vendors were for persons whose eligibility was based on age 65 and over. Thirty-two percent were on behalf of members of AFDC families. The proportion of payments (22.6 percent) on behalf of permanently and totally disabled recipients was greater than the proportion of medical payments for either adults or children in AFDC families. Among AFDC recipients, eighty-five percent of payments for medical care were made on behalf of persons also receiving money payments, however, for the aged 65 and over, seventy-three percent of medical vendor payments were on behalf of persons who were not receiving maintenance assistance. Medical vendor payments for non-money payment aged recipients accounted for more than one-fourth (27.5 percent) of the total vendor payments. It should be noted that a large amount of these payments are probably made to medical institutional facilities which provide the basic necessities (food, shelter, etc.) and thus the recipients are not authorized for money payments for such needs.

Payments by Type of Services

Seventy percent of payments were made for inpatient services, i.e., hospitals (32.2%), skilled nursing facilities (20.6%), and intermediate care facilities (16.9%). Among other services, physicians' services and prescribed drugs represented 10.7 and 6.7 percent of total payments, respectively.

Screening Services

Forty-five States reported 166,007 children screened under the Early and Periodic Screening, Diagnosis and Treatment Program. Sixty-four percent of the children screened were six years of age and older. Fifty-seven percent of children screened had referrable conditions uncovered and eighty percent of those with conditions uncovered were referred for diagnosis and/or treatment.

1/ Includes total payments of $31,228,194 for Ohio, an estimated total of $21,000 for Guam and vendor payments of $30,820,536 for Ohio and an estimated $17,600 for Guam.

2/ Includes estimates for Colorado, Guam, Massachusetts, New Hampshire and Ohio which were extrapolated from previous reports.

TABLE 1 TOTAL AMOUNT OF MEDICAL PAYMENTS UNDER TITLE XIX OF THE SOCIAL SECURITY ACT BY FORM OF PAYMENT AND BY HEW REGION AND STATE (FEBRUARY, 1974)

Annotations

1. The following definitions apply to the symbols appearing in the detailed tables.

   --- indicates no data reported.
   *** indicates that the percent was not computed because the base was too small.
   Z indicates that the percent was less than 0.05.

2. Arizona has no title XIX program and is excluded from the tabulations.

3. Guam and Ohio did not submit a report for February 1974 and are excluded from the tabulations.

4. Colorado and New Hampshire did not report recipients and payments by maintenance assistance status and basis of eligibility of recipients and are excluded from all applicable tables.

5. Massachusetts did not report recipient data.

6. In addition to Guam, Ohio, Colorado, New Hampshire and Massachusetts; Nevada, Pennsylvania and Utah are excluded from tables 10-13 because children and adults in AFDC families were not reported separately. Connecticut, Illinois, Kansas, Maryland, Minnesota, Mississippi and West Virginia were able to report AFDC recipients separately but were unable to differentiate medical vendor payments between adults and children in AFDC families. These States are excluded from the total percentage computations in Table 11.

7. Minnesota included recipients for whom premium or per capita payments were made to SSA system and Health Maintenance Organizations and such per capita amounts in the data in Tables 2-14.

8. Pennsylvania did not differentiate Other Title XIX recipients by age and is excluded from Table 14.

9. In California, there were 84,781 persons in AFDC families for whom it was unknown whether they were children or adults. These recipients and the $640,872 in medical vendor payments were distributed in the same proportions as the known amounts.

10. Data were partially estimated for Michigan and New Hampshire and recipient counts were estimated for North Carolina.

Annotations specific for Table 5 (Type of Service)

11. Data were not available on medical vendor payments for family planning for Alaska, Georgia, Kansas, and Rhode Island.

12. Family planning is included in other care for Virginia.

13. For Connecticut, other care includes other practitioners' services, clinic services, laboratory and radiological services, home health services, and family planning services. Vendor payments for general hospital include $279,180 paid to mental institutions.

14. For Kansas, medical vendor payments for clinic, laboratory and radiological, and family planning services were not available and are presumably included in other type of services.

15. For New York, other care includes laboratory and radiological services.

16. For New Mexico, vendor payments for general hospital services include $17,767 in retroactive adjustments.

17. For Kentucky, vendor payments for general hospital and nursing home services include reimbursable cost adjustments.

18. For Montana, total payment does not include $531 in vendor payments which cannot be distributed by type of service.

Annotations specific for Screening Tables 15-20

19. States omitted from tables did not report on screening services for February 1974.

20. For California, the number with specified conditions uncovered during screening excludes 81 individuals who were not distributed by age or condition.

21. For Colorado, EPSDT screening data excludes payments for 685 recipients receiving dental screening at a cost of $54,910.

22. For Georgia, the total screened includes individuals previously screened but not previously reported. Referral data and data related to problems for Georgia are excluded from the tabulations.

23. Payment breakouts by age for Florida and data for North Dakota were estimated. Screening data for Virginia are provisional.

24. Totals include expenditures of $88,612 which is not distributed by age: Idaho, $6,206; Kansas, $17; Mississippi, $41,938; New York, $38,351; South Carolina, $1,779; and Vermont $321 (Table 15).

25. Total number of individuals screened during the month includes recipients for Vermont and the Virgin Islands for whom no other information is available.

26. In Indiana, the 870 persons screened during the month with referrable conditions uncovered were not referred for treatment because they were either currently receiving treatment for the condition or parent did not desire treatment. Similarly, the 4,469 persons not referred in Texas received immediate remedial or prophylactic care by the person performing the screening.

27. For Kansas, screening data includes 6 individuals and an expenditure of $17 who are in on-going care. There was no breakdown by age for these persons.

28. For South Carolina, payments for screening includes $1,779 for which there was no age breakdown.

29. Payments for screening services were not reported by District of Columbia, Maryland, Michigan, Montana, South Dakota, Texas, Puerto Rico, and the Virgin Islands.
